

Turnout Rental – Measuring Instructions

If you are ordering gear and you were not measured in person complete the following form and fax to us along with your equipment rental agreement to **(414) 918-4727**.

INSTRUCTIONS

- **Chest:** Measure loosely over clothing around fullest part of chest, below arms, with arms at rest. For broad shoulders, muscled arms and/or back, an over the t-shirt arm/chest measurement is helpful.
- **Bust:** *(Women Only):* Measure over clothing, around fullest part of bust, and below arms with arms at rest.
- **Sleeve Length:** Measure from center of neck backbone, around bent arm, to wrist at base of hand.
- **Waist:** Measure around outside of pants belt. Enter the exact measurement. DO NOT order size smaller than measurement taken.
- **Hips:** *(Women Only):* Measure over clothing, around fullest part of hips.
- **Inseam:** Measure from crotch seam (inside leg) to top of ankle bone. Hold measuring tape up tight to the crotch, then take your measurement.

Note: If sizes cannot be matched from rental inventory, then the next size up will be selected. Performance can be maintained with larger structural turnout apparel verses constriction caused by equipment that is too small. Adjustments may be made with take-up straps on the gear.

MEASUREMENTS (Note: We ship based on the size you submit. You must add the 4 inches, if noted.)

Student Name: _____

Department or School: _____

Start Date: _____ **End Date:** _____
